

# Nakuja Internship

## Week 2 Progress Report

JEFF MBOYA

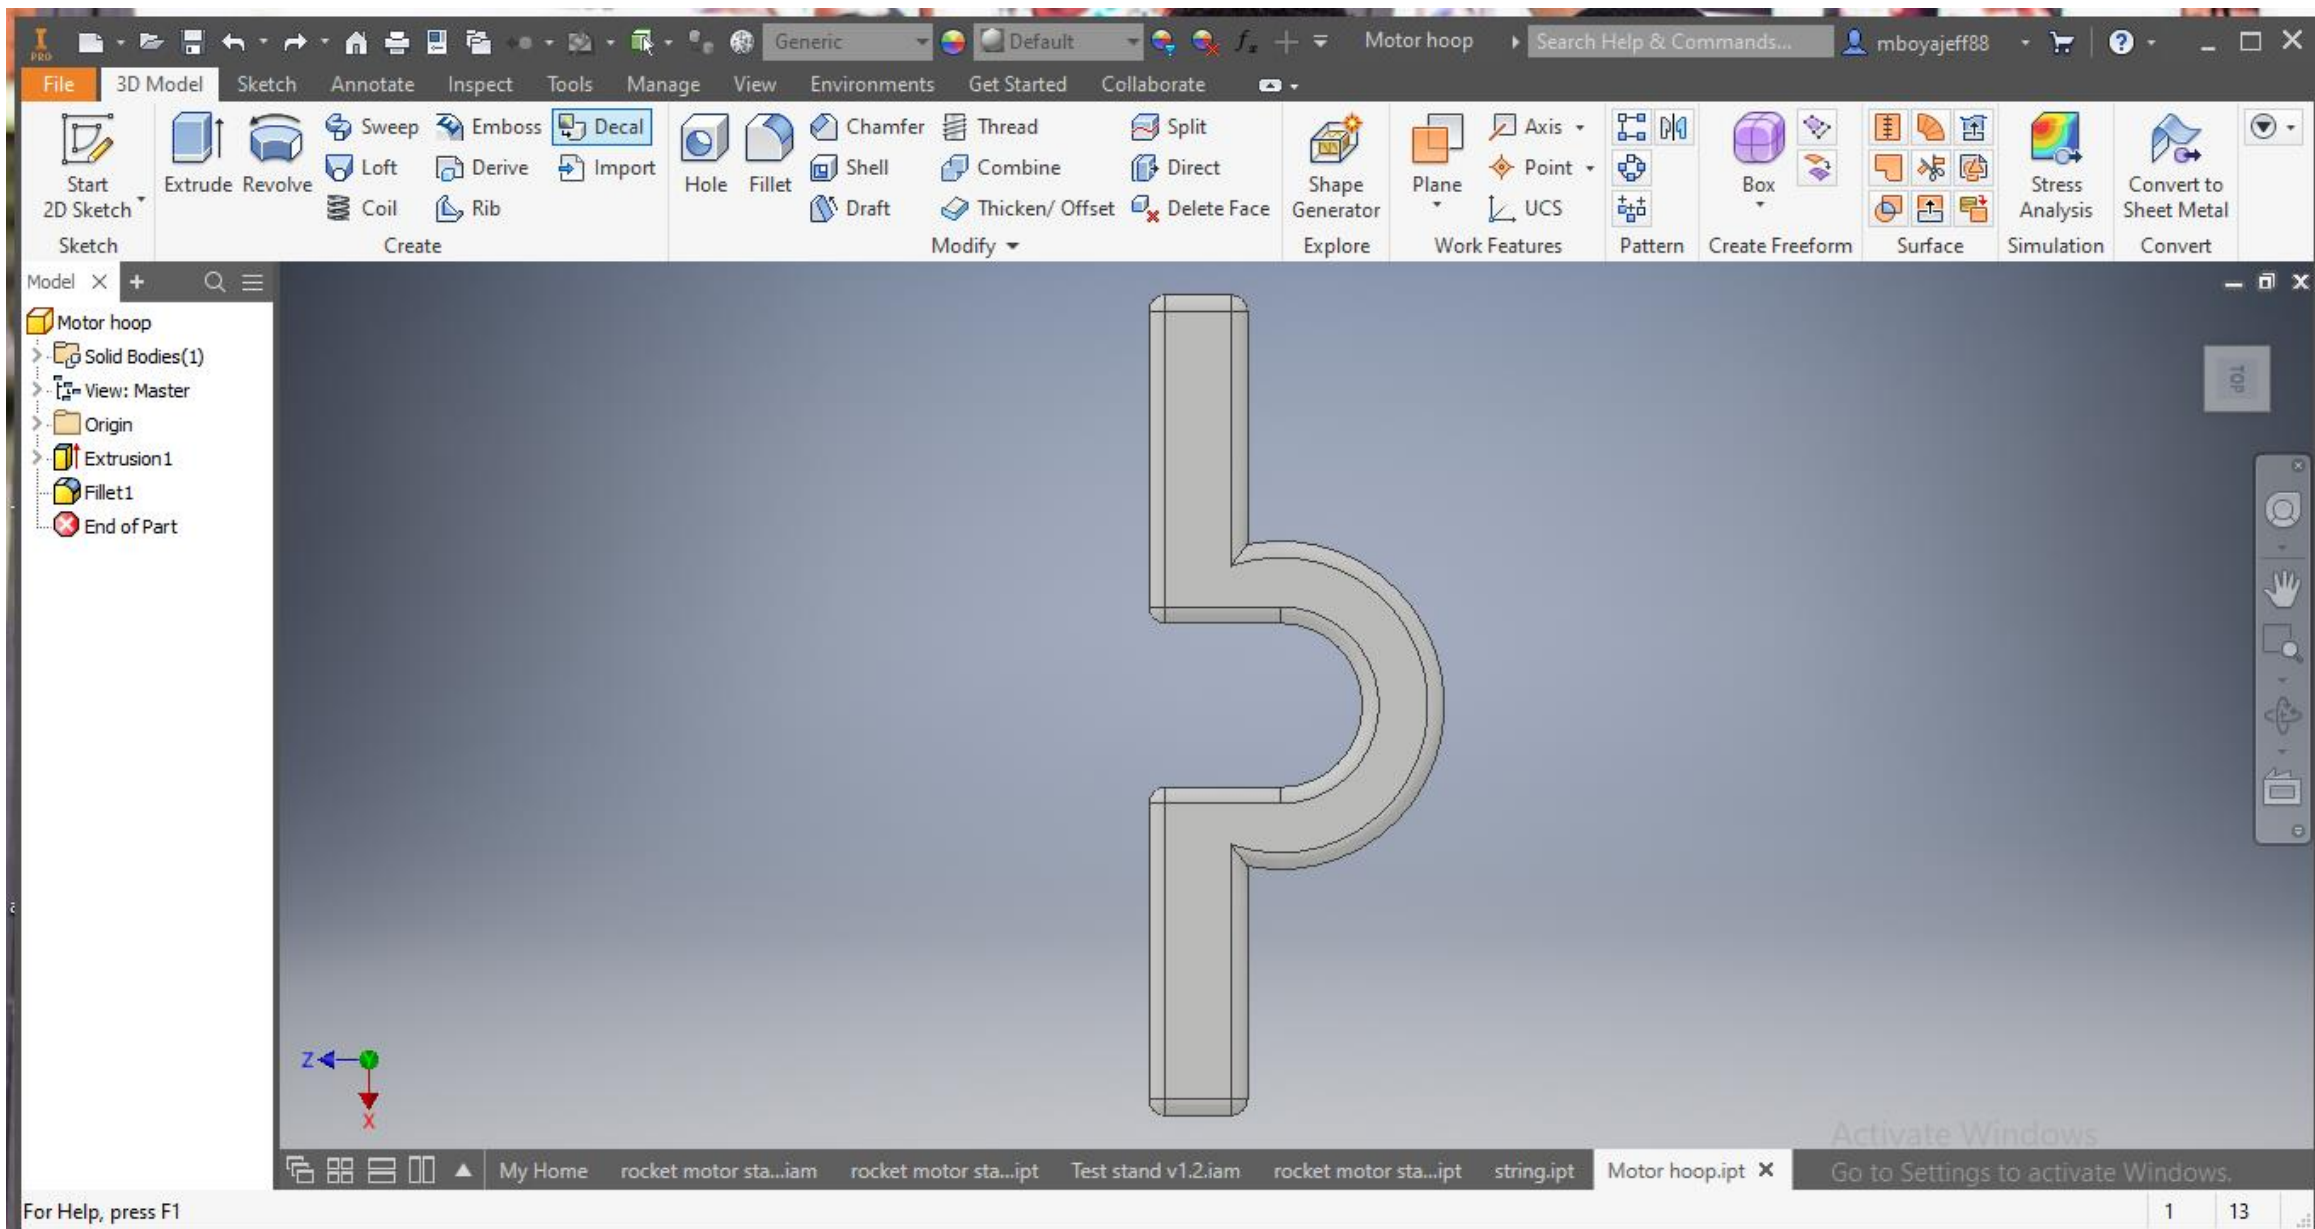

# Tasks completed last week

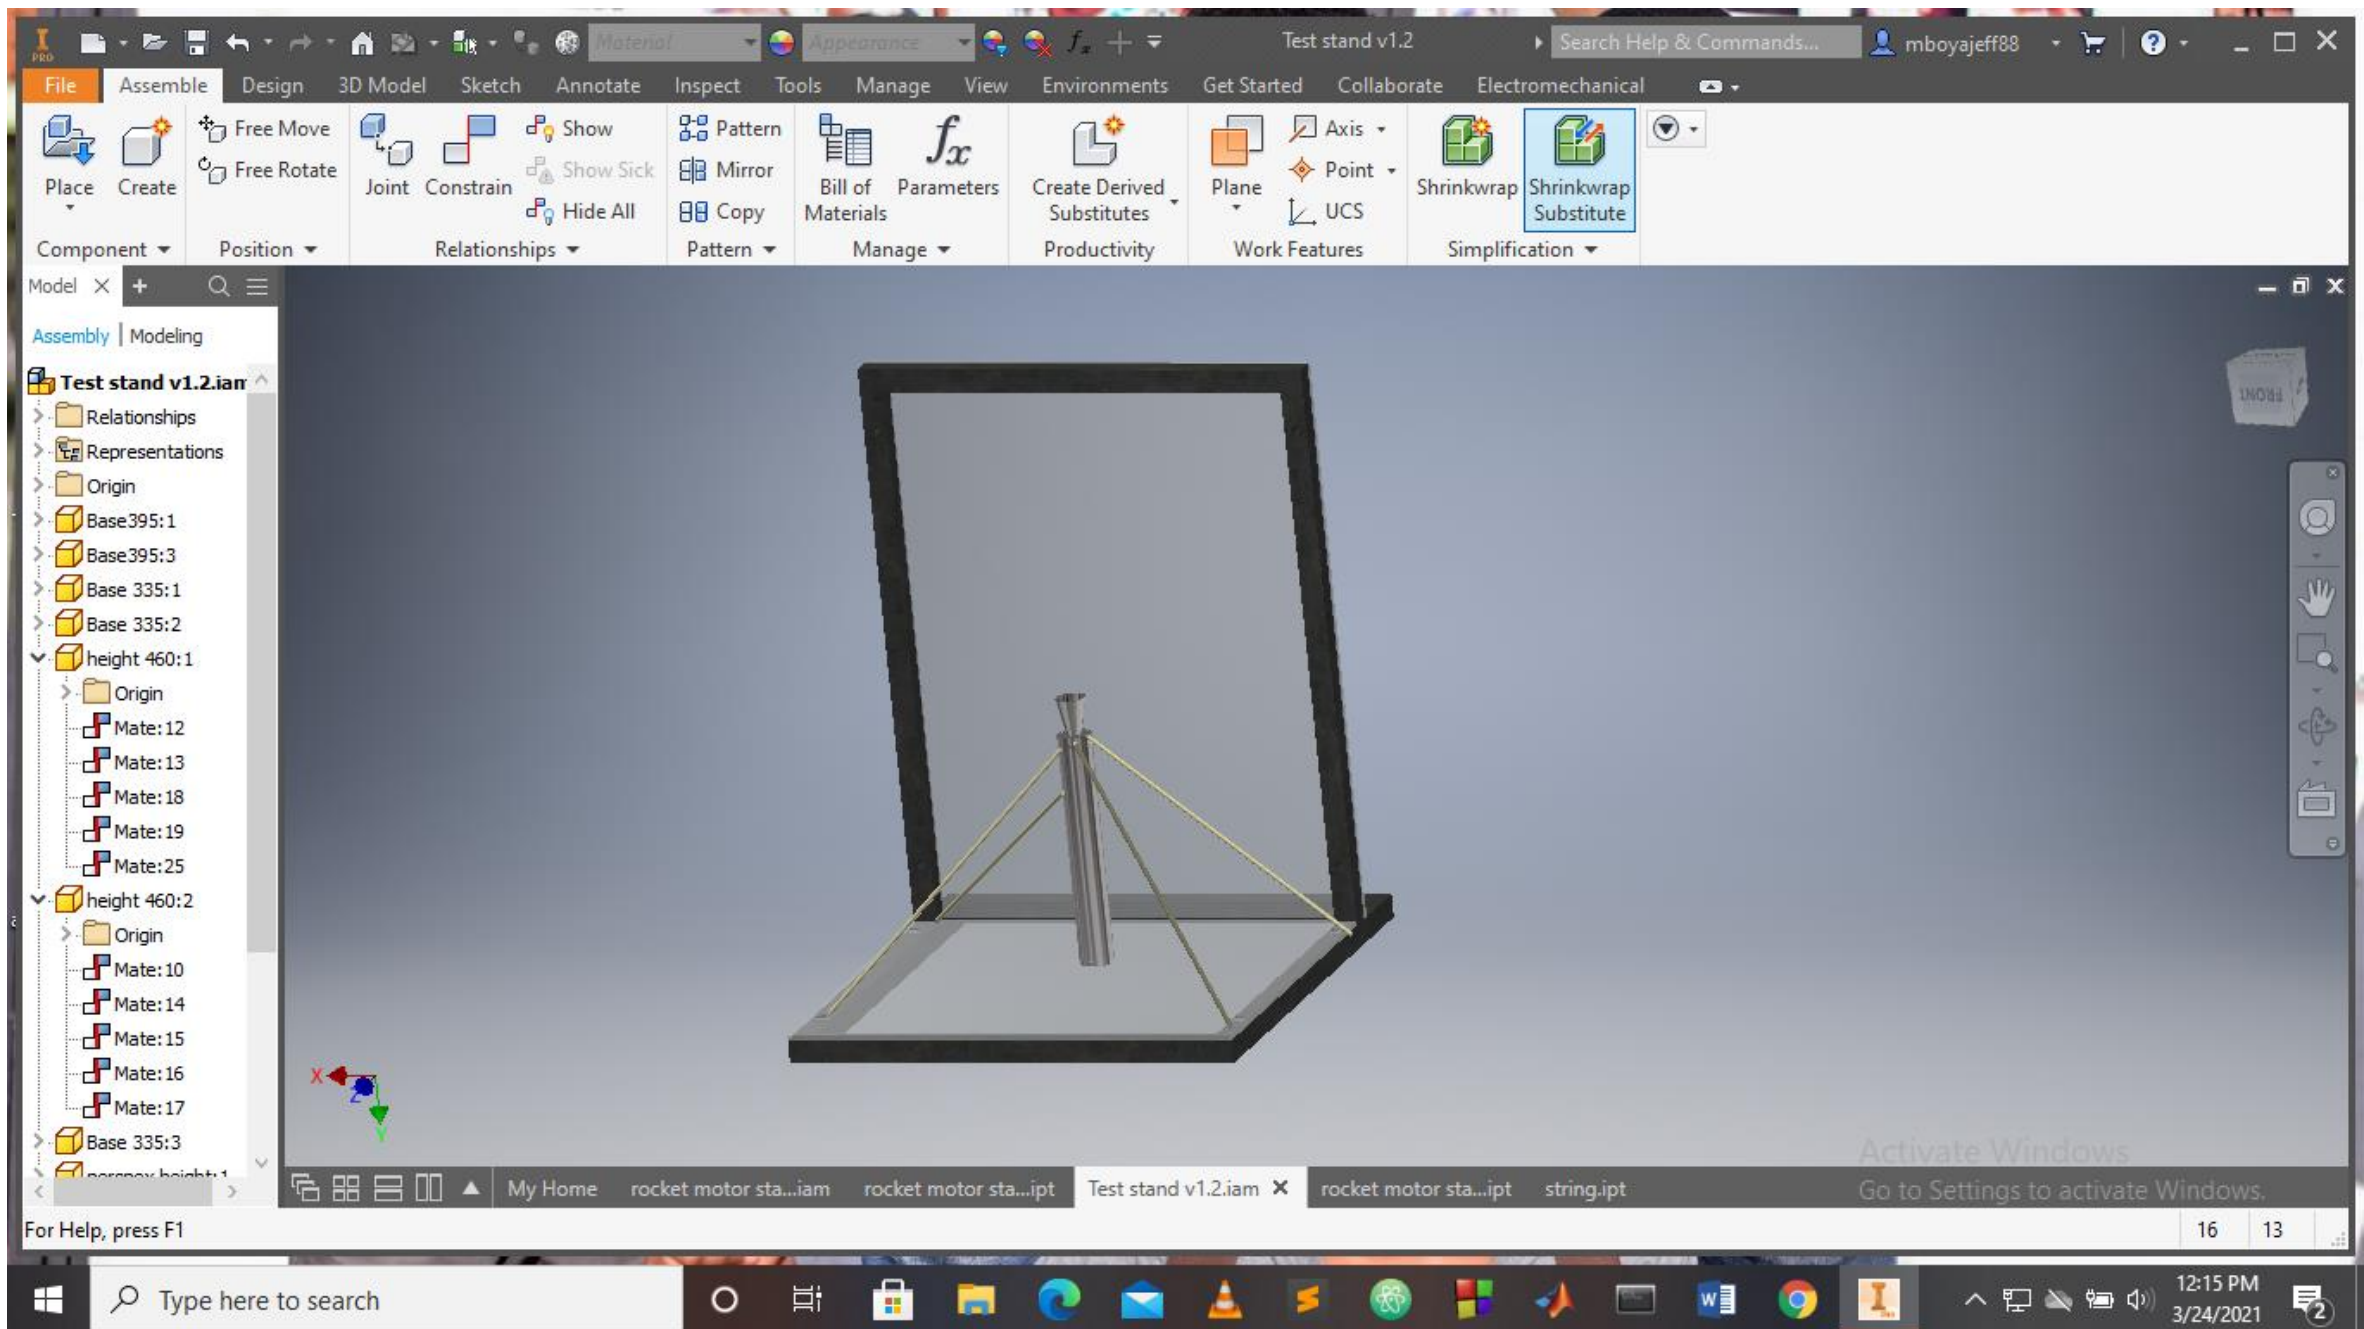

- Propellant Casting
- Parachute ejection test
- Static fire test no. 1

# Tasks to complete this week

1. Safety design into static fire test stand
2. Casting propellant for second static fire test.
3. Conducting static firing test no. 2

# Timeline

Month	Week	Tasks
March	Week1	Design and fabrication of nozzle
	Week2	Design and fabrication of test stand
	Week3	Casting propellant
	Week4	Testing the model rocket on motor Static firing test Analysis of thrust data
April	Week1	Design and testing of Launch pad Static firing test Analysis of thrust data
	Week2	Development, testing, and integration of launch sequence Static firing test Analysis of thrust data
	Week3	Static firing test Analysis of thrust data
	Week4	Launch of N-1 rocket
