

Nakuja internship
Team meeting

Progress report format

Tasks completed last week

- a) Machining of the N-2 rocket motor casing
- b) Machining of the N-2 rocket motor nozzle
- c) Machining of the N-2 rocket motor bulk head
- d) Drilling of the N-2 rocket motor casing, bulkhead, and nozzle.

Tasks in this week

- a) Design of standard rocket motor test stand for both the N-1 rocket and N-2 rocket.
- b) Fabrication of the designed test stand.
- c) Tapping of the rocket motor nozzle, casing, and bulkhead.
- d) Research on different rocket motor recovery systems.
- e) Determination of the most suitable recovery mechanism for N-1 rocket

Timeline

Month	Week	Tasks
Mar	Week 1	<ul style="list-style-type: none">• Design of standard rocket motor test stand for both the N-1 rocket and N-2 rocket.• Fabrication of the designed test stand.• Tapping of the rocket motor nozzle, casing, and bulkhead.• Research on different rocket motor recovery systems.• Determination of the most suitable recovery mechanism for N-1 rocket
